

**Consideration for recommendation of preliminary adoption of amendments to fish and wildlife rules in 312 IAC 9; Administrative Cause No. 14-054E**

The Division of Fish and Wildlife is proposing to amend the following rules:

- 312 IAC 9-2-3: Allows the sale of river otters, including their hides and parts, as well as squirrel hides. The sale of river otter hides and parts is needed with the changes to 312 IAC 9-3-18.2 that would open a trapping season for river otters. The sale of squirrel hides was requested in a citizen petition to the Natural Resources Commission.
- 312 IAC 9-3-18.2: State law requires the Division of Fish and Wildlife (DFW) to manage wild animals to be self-sustaining. The DFW reintroduced river otter in the mid-1990s. They are now found in more than 87 percent of Indiana counties, and the population continues to expand. This has led to conflicts between river otter and private pond owners, aquaculture facilities and recreational anglers. The DFW has a responsibility to manage and balance the river otter population for all citizens. Such a season would allow for a healthy and stable river otter population. The rule proposal includes strict limits on the number of otters that could be taken; when, where, and how otters can be trapped, and mandatory registration of harvested otter. Traps must be checked every 24 hours under state law. A temporary rule would be implemented annually by the director that would specify the counties that would be open to trapping and the statewide quota.
- 312 IAC 9-3-18.4: Removes the river otter from this rule since it will be a game species. Game taken legally outside Indiana can be possessed in Indiana already pursuant to IC 14-22-10-4.
- 312 IAC 9-10-12: Removes date restrictions on the possession of river otter, bobcat, and badger carcasses and hides, changes the possession date and reporting date to June 30 of the year the license expires (licenses run from July 1 through June 30 of the following year), and specifies requirements for the proper disposal of carcasses.
